IMPORTANT NOTES:

- Our size chart reflects a body measurement, NOT a dress measurement.
- Our dresses have 1-1.5 inches of ease built into the patterns to allow for movement.
- The bust measurement on a strapless dress will be approximately the same as the bust measurement on the size chart.
- MATERNITY STYLES use bust measurement only.
- Please make sure to have your consumer's measurements taken by an experienced seamstress or tailor. They must pull the tape snugly against the body to ensure the most accurate measurement. Consumers should not measure themselves!
- Extra length is suggested for anyone 5'7" and taller
